DESIGN IN COLOUR

It seems our habit of painting everything on an old house white is behind us.

As the renovation of this villa shows, developing a more sympathetic scheme creates a compelling dynamic between old and new. On the original villa, the weatherboards are Resene Siam with Resene Double Sea Fog trim; the front steps are Resene Gravel. Out the back, it's more neutral: Resene Woodsman Whitewash, Resene Merino and Resene Half Merino – with a dose of Resene Cabbage Pont, a shadowy, elusive green, in the bathroom for good measure.
