A TENDER TOUCH

Picture the peaceful feel of early spring mornings, when the air is clear and the colours outside are dimly lit and almost nostalgic in their muted beauty. Now imagine bringing that soothing, optimistic energy into your home with a Resene paint scheme that champions nature-inspired shades such as Resene Blondee, Resene Maverick, Resene Tranquil and Resene Tusk.

Cool combos

As in the runway looks above, these sweet, pale paint colours by Resene make gorgeous hero hues that can be strengthened by darker accents. Creating striking contrast, it's an interior effect that says spring with a side of more serious sophistication.

ROSIE ASSOULIN RESORT S24

BLANK CANVAS

This sartorial scene (left) shows how whites and gentle greys can set the stage for bright flourishes. White with a hint of grey, Resene Sea Fog rolls two into one, which you could pair with a pretty pop like that of Resene Tonys Pink.
