

GOLDEN HOUR
 The sky's the limit for golden-hued inspiration this season — let joyous beams of Resene colour mimic the magic after sunrise and before sunset. Think Resene Turbo, Resene Sunshade and Resene Cream Can to add warmth to your palette, plus a splash of Resene Lightning Yellow, Resene Outrageous, Resene Kamikaze or Resene Daredevil to suggest the peak of dawn and dusk.

DREAM IN COLOUR
 As the old saying goes, pink sky at night provides much delight. Just as a pop of sweet blush can bring life to your cheeks, the right shade for your walls is best paired with a peach base. Start with a foundation of apricot-hued Resene Negroni, Resene Tacao or Resene Cornflower, then pump up the pigment with our pick of these pinks: Resene Irresistible and Resene Smitten.
