

You will need:

- Cardboard
- Cardboard box
- Masking tape
- Paintbrushes
- Pencil
- Resene Quick Dry
- Resene testpots of Resene Alabaster, Resene All Black, Resene Goblin and Resene Killarney
- Scissors

Step one

Draw a frog shape on a piece of cardboard with a pencil, and carefully cut out using scissors – you might need a grown up to help with this.

Step two

Cut two slots on the base of the cardboard frog shape and slide it onto the back of the cardboard box, as shown. Fix securely with masking tape.

Step three

Apply one coat of Resene Quick Dry to the frog box and allow two hours to dry.

Step four

Apply two coats of Resene Killarney to the frog shape and two coats of Resene Goblin to the base box. Allow two hours for each coat to dry.

Step five

Paint two eye shapes with two coats of Resene Alabaster. Again, allow two hours for each coat to dry.

Step six

Paint the eye pupils and other details using Resene All Black and allow paint to dry – how cool is that?

It's easy to create this funky frog craft box using some cardboard and a few Resene testpots.

Top tip:

Make sure you use thick cardboard to prevent it from bending when you apply the paint.

Here's another idea:

This fabulous doggy craft box was painted with Resene Alabaster, Resene Authentic, Resene Ballerina, Resene Matisse and Resene Nero.
