

★★★ Difficulty level ★ easy ★★ moderate ★★★ challenging

Resene art with Mark Rayner – 22

You will need:

- 50mm wide roll of clear sticky tape
- Paintbrushes
- Primed artists' canvas
- Resene Art Action Metallic paints in the following colours: Resene Bullion, Resene Gold Dust and Resene Gold Effect
- Resene Multishield+ gloss
- Resene Quick Dry waterborne primer undercoat
- Resene Testpot in Resene Porsche

Step one

Apply the sticky tape to the canvas in a random fashion, creating a heavily textured surface, as shown.

Step two

Turn the canvas over and press firmly across the back to make sure the tape is stuck down.

Step three

Apply one coat of Resene Quick Dry waterborne primer undercoat to the front and side edges of the canvas and allow to dry for at least an hour.

Step four

Apply one coat of Resene Porsche to the front and side edges of the canvas and allow to dry for two hours.

Step five

Apply two coats of Resene Bullion to the front and side edges of the canvas, allowing two hours for each coat to dry.

Step six

Use a dry brush technique to lightly apply Resene Gold Dust to the raised areas on the canvas, allowing two hours to dry.

Step seven

Apply a few highlights of Resene Gold Effect to complete the textured look. Allow to dry.

Step eight

Apply one coat of Resene Multishield+ gloss to the entire canvas and allow to dry overnight before hanging.

Use a selection of Resene Art Action metallic paints to create a fabulous textured abstract painting.

To get the look:

Mark painted the surrounding wall with Resene Zylone Sheen tinted to Resene Monza.

Other ideas:

Use this same technique to create a stunning silver artwork using a base coat of Resene Silver Chalice with topcoats of Resene Silver Aluminium and Resene Scotty Silver.
