

Difficulty level ★ easy ★★ moderate ★★★ challenging

Resene kids art with Mark Rayner – 35

### You will need:

- Small concrete paver
- Resene Concrete Primer
- Resene Testpots in the following colours: Resene Alabaster, Resene Anakiwa, Resene Bright Red, Resene Bright Spark, Resene California, Resene Nero and Resene Splish Splash
- Paintbrushes

#### Step one

Paint the concrete paver with one coat of Resene Concrete Primer and allow to dry.

#### Step two

Paint the paver with two coats of Resene Anakiwa, allowing two hours for each coat to dry.

#### Step three

Paint the sun rays with two coats of Resene California and the centre of the sun with two coats of Resene Bright Spark, allowing two hours for each coat to dry.

#### Step four

Paint in the eyes with Resene Splish Splash, Resene Nero and Resene Alabaster, and the mouth with Resene Bright Red. Leave overnight to dry and then get stepping!

It's easy to create a sunny stepping stone with a few Resene testpots.

#### Top tip:

To protect your garden paver even more, apply one coat of Resene Multishield+ once the other paints are dry.

#### Here's another idea:

Create a funky handprint paver using a base of Resene Get Reddy, and handprints of Resene Paua, Resene Rubber Duck, Resene Dizzy Lizzy and Resene Splish Splash.
