

★★★ Difficulty level ★ easy ★★ moderate ★★★ challenging

Resene kids art with Mark Rayner – 1

You will need:

- Coloured glass nuggets
- Photo of your cat
- PVA glue
- Resene Quick Dry Acrylic Primer Undercoat
- Resene Testpots in the following colours:
Resene Bombshell and Resene Mandy
- Wooden frame with backing cardboard

Step one

Remove backing cardboard and glass, and then paint the wooden frame with one coat of Resene Quick Dry Acrylic Primer Undercoat.

Step two

Once the primer has dried, paint the frame with one coat of Resene Mandy. Let this dry, and then paint it with a second coat of Resene Mandy. Leave the frame to dry.

Step three

Using the PVA, glue a line of glass nuggets around the top edge of the frame, as shown.

Step four

Continue gluing the nuggets around the remaining edges of the frame. Once all four edges are finished, leave the frame to dry overnight.

Step five

Paint the piece of backing cardboard with one coat of Resene Bombshell. Leave this to dry then paint with a second coat.

Step six

Once the second coat has dried, place your cat photo on the piece of backing cardboard, trim to fit, then glue in position with a few drops of PVA. Once it's dry, put the picture and glass back into the frame, then step back and admire your masterpiece!

Top tip:

If you don't have a picture of your pet, use a photograph from an old magazine or calendar.

Here's another idea:

Create an instant jungle feel by decorating your frame in a tiger pattern – we used testpots of Resene Chilean Fire and Resene Black.
