

Difficulty level ★★☆☆ easy ★★ moderate ★★★ challenging

Resene kids art with Mark Rayner – 31

You will need:

- Artist brushes
- Calendar
- Glue stick
- Masking tape
- Picture from a colouring book
- Piece of corrugated cardboard
- Resene Art Action Art & Poster paint in the following colours: Resene Black, Resene Warm Blue, Resene Warm Red and Resene White
- Resene Testpot of Resene Get Reddy
- Scissors

Step one

Cut the cardboard to fit the top page of the calendar and fix into position with the glue stick and masking tape, as shown. Use the scissors to cut the ends of the masking tape to fit – you might need a grown up to help with this bit.

Step two

Paint the cardboard with two coats of Resene Get Reddy – you might need to wait a while to let each coat dry. While it's drying, cut out the picture from a colouring book using the scissors – again you might need a grown up to help.

Step three

Carefully glue the picture into position with the glue stick and leave to dry.

Step four

Paint the picture using a small brush and Resene Art Action Art & Poster paint – use Resene White and Resene Black for the dog's fur and mix a little Resene Warm Red with Resene White to make a pink colour for his nose and tummy. Mix Resene Warm Blue with Resene White to make a pale blue for his eyes.

Turn a calendar into a real work of art with the help of Resene paints.

Top tip:

An old ice cream container lid makes a great palette for mixing paint on.

Here's another idea:

You can also use Resene Testpots - Resene Deep Koamaru (background), Resene Mai Tai (dog's fur), Resene Shocking (nose), Resene Black, Resene Alabaster and Resene Anakiwa (eyes).
