

★★★ Difficulty level ★ easy ★★ moderate ★★★ challenging

Resene kids art with Mark Rayner – 52

You will need:

- A brown paper bag
- Paintbrushes (including an artists' brush)
- Resene Quick Dry waterborne primer undercoat
- Resene testpots of Resene Alabaster, Resene Limelight and Resene Nero
- Scissors

Step one

Carefully cut the handles off the paper bag using the scissors.

Step two

Cut two eye holes in the front of the paper bag, as shown – you might need to get a grown-up to help with these first two steps.

Step three

Carefully apply one coat of Resene Quick Dry to the outside of the paper bag and allow to dry for one hour.

Step four

Carefully paint the paper bag with two coats of Resene Limelight, allowing two hours for each coat to dry.

Step five

Using an artists' brush, paint in the hair and face details with Resene Nero and allow to dry for two hours.

Step six

Using a smaller artists' brush, paint in the teeth with Resene Alabaster. Leave to dry for two hours, then put on your mask and get spooking!

Create this spooky monster mask using a paper bag and a few Resene testpots.

Top tip:

For safety reasons, always make sure you use a paper bag and never a plastic bag to make this mask.

Here's another idea:

Create a kooky clown mask using testpots of Resene Alabaster, Resene Clowning Around, Resene Havoc, and Resene Nero.
