Step two

Paint the hardboard with two coats of Resene Nero, allowing two hours for each coat to dry.

Step three

Mix a little Resene Art Action glaze with some dark blue glitter and paint onto the hardboard in an exploding 'fireworks' pattern. Allow two hours to dry and then repeat using medium blue glitter. Allow two hours to dry.

Step four

Repeat step three using light blue glitter and silver glitter, allowing two hours for each coat to dry. What a cracker!

This fabulous fireworks painting is easy to create using a selection of coloured glitters and Resene paints.

Top tip:

If you don't have any hardboard simply use a piece of cardboard or thin MDF.

Here's another idea:

This swirling space painting was made in the same way using blue, silver and red glitter over a base of Resene Optimist.
