

★★★ Difficulty level ★ easy ★★ moderate ★★★ challenging

Resene kids art with Mark Rayner – 88

You will need:

- Paintbrushes (including an artists' brush)
- Resene Lumbersider tinted to Resene Chaos
- Resene Waterborne Smooth Surface Sealer
- Resene Testpot of Resene Fizz
- Sandpaper
- Scissors
- Thick twine
- Two empty 4 litre Resene paint tins

Step one

Remove any sticky labels from the tins and sand lightly to provide a 'key' – this will help the paint to stick.

Step two

Apply one coat of Resene Waterborne Smooth Surface Sealer to the paint tins and allow two hours to dry.

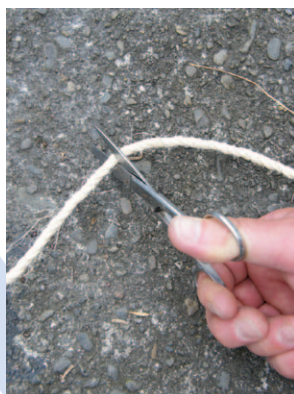

Step three

Apply two coats of Resene Chaos to the tins, allowing two hours for each coat to dry.

Step four

Paint spots on the tins with two coats of Resene Fizz, allowing two hours for each coat to dry.

Step five

Cut the twine into two 1.8m lengths and tie the ends of each piece together to create two loops of twine (you might need a grown up to help with this bit).

Step six

Attach a loop of twine to the centre of each paint tin handle, threading the twine back through itself to fix firmly. Then get walking!

Turn a couple of empty Resene paint tins into these super groovy stilts using two contrasting Resene colours.

Top tip:

You can also use 1 litre Resene paint tins to make smaller stilts – just get a grown up to drill 10mm holes in the sides to thread the twine through.

Here's another idea:

This fabulous blue and white spotty combination was created with Resene Alabaster over a basecoat of Resene Splish Splash.
