Find an object you love and use those tones for a new and exciting colour scheme

1 Vintage styling on a tea caddy led to the tin being kept well after the tea was gone. It was the combination of opposing colours that we liked and its colours provided for a surprisingly modern colour scheme. We chose: **Resene Pretty in Pink**, **Resene Clementine Orange** from the Karen Walker collection, **Resene Rich Gold** and **Resene Chathams Blue**.

2 There are some gorgeous old-fashioned fabrics to be found at second-hand shops. With a tapestry-covered cushion like the one above, you could use the rich mix of bold pinks and gold as a jumping-off point for a lounge make-over, choosing: **Resene Can Can**, **Resene Hippy Pink**, **Resene Calico** and **Resene Double Pavlova**.

3 A stripy shell brings back memories of a beachside holiday as well as inspiring the perfect colour scheme for a bedroom or bathroom. Picking out the colours of the shell we chose: **Resene Polo Blue**, **Resene Princess**, **Resene Energy Yellow** and **Resene Quarter Powder Blue** from the Karen Walker collection. Background painted a quarter tint of **Resene Colorwood Cherrywood** wood stain.
