

Get the professional edge with Airlessco paint sprayers...

...now proudly imported and distributed direct to the trade by Resene Paints.

Airlessco paint sprayers are acknowledged as the benchmark by which other sprayers are judged. Incorporating advanced engineering and rugged all metal construction, Airlessco sprayers are brimming with features that ensure a professional finish every time.

Consider the Airlessco Little Pro 2500

3000 psi capacity to handle hard to spray materials.

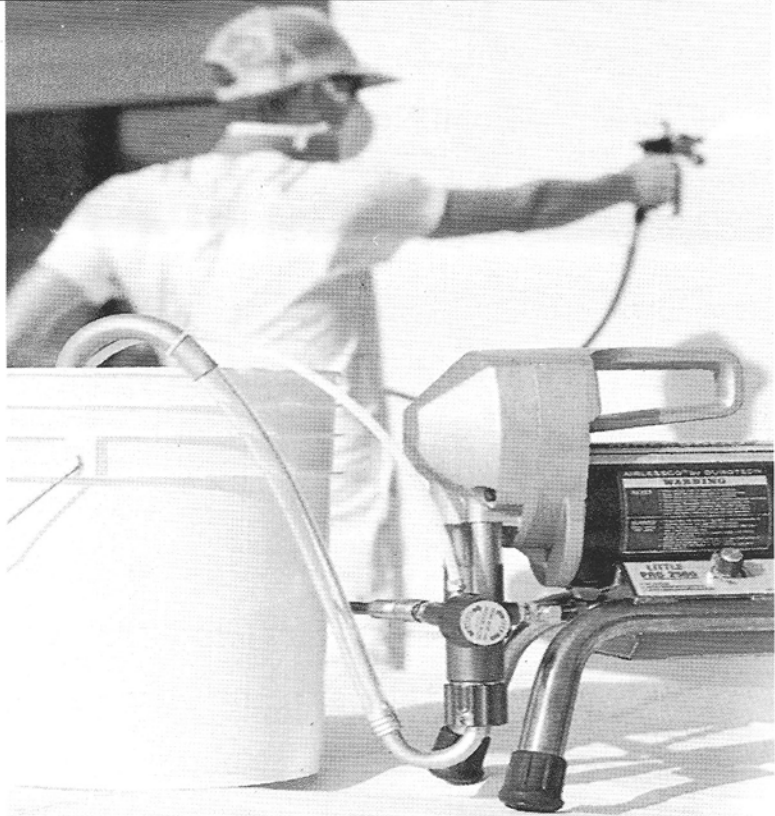

Electronic pressure control for smooth controlled spraying.

Superb quality industrial DC motor allows long extension leads to be used.

Stainless steel industrial grade pump, plus patented Triple Packaging System ensures long life.

Compact and portable.

Hire purchase available.

These great product features are backed up by full after sales service and support. And to cap it off, the Little Pro 2500 is available at a very affordable price, in fact it's the most competitive in its class.

Enquire now about the Airlessco 2500 at your nearest Resene ColorShop.
