

IT'S STIPPLECOTE!

The best costs less per year!

CEMENT BASE PAINT *for permanent cover* **on concrete, stucco &** **masonry surfaces**

- Available in fifteen shades and white.
- White Portland Cement base.
- Powder mixes readily with water.
- Produces a hard weather-resistant surface.
- Definitely stops seepage.
- Easily applied to concrete, stucco, brickwork, soft stone, asbestos-cement board, all cement plaster surfaces, rough cast.
- Brush finish, spray, stipple, spatterdash, trowel, etc.

COVERING CAPACITY

This will vary according to the texture of the surface to be treated, its porosity, and the method of application (i.e., spray, brushing, etc.). When mixed to normal consistency the approximate covering capacity of STIPPLECOTE for TWO coat brushwork can vary from 7 sq. ft. per lb. for rough cast to 20 sq. ft. per lb. for fibre board. Full instructions on the can.
