

FEARLESS FUSION

Get inspired by the changing seasons and make a change by enhancing your home with fresh colours and paint techniques.

If there is one way to make a statement on your walls and furniture, it's by embracing colour. And if you want to make even more of a statement, don't just embrace one colour, be bold and adventurous and team together two different colours. The traditional styling and sense of depth and dimension you can achieve with paint effects techniques is being reinvented using new and contemporary combinations of colours and techniques ideal for today's modern home. Choose a basecoat, then bring it to life with a stencilled metallic finish using your favourite metallic colour from the Resene Metallics & Special Effects collection or add shimmer and shine to your walls with a ragged, distressed, rolled or rough-brushed metallic over your favourite Resene feature colour. The topcoat will play off the basecoat colour giving the sense that your walls are dressed in layers of delicious colour. Red and gold are an enduring sumptuous combination, which works beautifully with stained timber and antique treasures. Bring timber treasures into the palette with darker stains from the Resene Colorwood interior wood stain collection. *The Resene colour collection includes the latest designer paint colours to dress your home. Available from Resene ColorShops and resellers. resene.co.nz/colorshops; 0800 737 363. Please view a physical Resene colour sample before making your final choice.*
