

The use of Resene paints as toys or in the manufacture of toys

AS/NZS ISO 8124.2:2003 Safety of Toys outline the properties expected for toys with respect to mechanical and physical properties, flammability and the migration of certain elements. The sections relevant to paint relate to flammable liquid and the migration of certain elements.

Resene Paints Ltd is confident that the following products designed as architectural paints are appropriate for use on toys and for sale as toys.

Resene Aquaclear
Resene Art Action Art & Poster, Student Acrylic, Tempera
Resene Blackboard Paint
Resene Enamacryl
Resene Enamacryl Metallic
Resene Lumbersider
Resene Lustacryl
Resene Lusta-Glo*
Resene Magnetic Magic
Resene Pearl Shimmer
Resene Pixie Dust
Resene Orystal Poly-Satin*, Poly-Gloss*, Poly-Flat*
