

# Sparkly planters

## MATERIALS

Terracotta pots

Resene Terracotta Sealer

Resene Quick Dry - undercoat  
(small pot)

Testpots - undercoat: Resene Dusty  
Road; Resene Coriander

Testpots - Resene FX Metallics:  
Resene Goldmine; Resene Stun

Resene paintbrushes (I used PAL  
Detail Brush Number 6 for undercoats;  
PAL Detail Brush Number 2 for  
Resene FX Metallic coats)

Wooden stick to stir Resene  
FX Metallic pots

Gardening gloves

Potting mix

Plants

## MAKE IT

1. Coat the terracotta pots inside and out with Resene Terracotta Sealer.
2. Once dry, apply Resene Quick Dry as a fast-drying undercoat.
3. Then, paint each pot with the assigned undercoat for each Resene FX Metallic paint. Allow to dry.
4. Take time to stir each Resene FX Metallic paint pot so the sparkle is mixed through the paint. Paint two to three layers, allowing drying time after each layer. Use a criss-cross technique when painting. This ensures maximum sparkle and great results.
5. Pop your gardening gloves on, and half-fill each painted pot with soil. Put a small plant in and fill to near the top with more soil.
6. Enjoy!

Bring some bling and greenery to any occasion. *Made by KINETA BOOKER.*

**TIP:** A great idea for Christmas presents because they're pretty and made from the heart!

**TIP:** A basecoat is recommended for all Resene FX Metallic – with the specific colour shown in brackets on the colour chart.

For all your DIY projects, big or small, visit your nearest Resene ColorShop.
