

# the night garden

Wallpaper art sets the scene.

Jewel tones and rich velvet come together to create a sumptuous, fireside living area. Add an artwork made from overblown floral wallpaper (Eijffinger Masterpiece 358000 available from Resene ColorShops), and some antique silver accessories for an evocative wintry space.

The walls are in Resene Atlas (deep green) and Resene Zinzan (navy), the fireplace surround is in Resene Avenger and the floor is in Resene Colorwood Greywash. The paint-effect coffee table is randomly basecoated in Resene Trouble, Resene Sumptuous, Resene Energise, then painted with Resene Crackle Effect and topcoated in Resene Nero.

For furniture and accessories, see page 11.
