

Resene PaintWISE

Resene PaintWise service acceptance criteria

We DO accept:

- All waterborne paints, all brands, must be in original labelled/printed packaging (rusty packaging is acceptable).
- All solventborne paints, all brands, must be in original labelled/printed packaging (rusty packaging is acceptable).
- All protective coatings two packs and hardeners produced by Resene or Resene Group Companies (Altex, Resene, Rockcote).
- All polyurethanes.
- All textured coatings produced by Resene or Resene Group Companies (Altex, Resene, Rockcote).
- All Resene empty tinter cans.

Original labelled/printed packaging is still accepted if rusty provided it's in the original packaging and the contents match the packaging.

Community paint bin criteria:

- Resene branded ONLY. No non-Resene paint.
- Waterborne paint only.
- Paint must be in good usable condition and the paint container must be at least 40% full.
- Paint must be in original labelled container.
- ALL paint that does not meet the Community paint bin criteria should be sorted into the normal waterborne and solventborne bins for the PaintWise driver to collect and process.

We DO NOT accept:

- Protective coatings two packs and hardeners produced by companies other than Resene or Resene Group Companies (Altex, Resene, Rockcote).
- Thinners or solvents – e.g. turps, meths etc.
- Wallpapering materials, inc glues, adhesives and pastes.
- Tiling materials, inc glues, pastes, grouting, adhesives etc.
- Any paint not in original labelled packaging. (i.e. no paint in glass jars, no paint in non paint cans etc).
- Aerosol/spray cans.
- Plastering products – e.g. GIB© compounds etc.
- Road coatings, Flint coatings.
- Textured coatings produced by companies other than Resene or Resene Group Companies (Altex, Resene, Rockcote).
- Pack sizes over 20 litres.
