# WAYS WITH ROCKS

by Olivia Dajevic

## 1

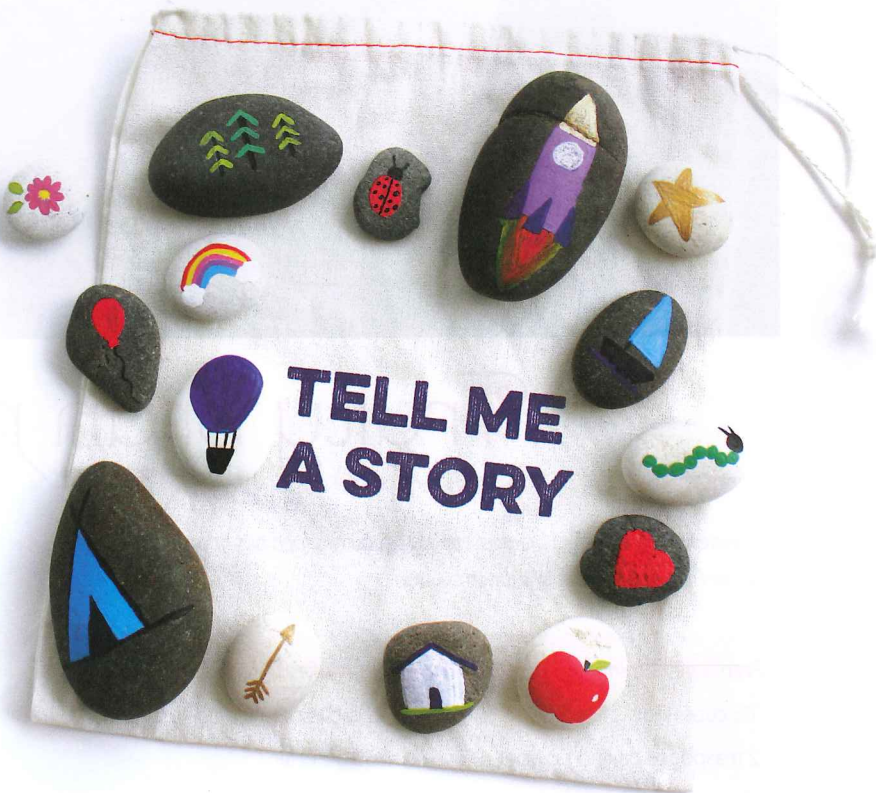

### CHEERY CACTUS

**How to:** Paint five oblong rocks with cactus designs and leave to dry. Place a small pot upside down inside a larger pot, adding a cardboard disc on top to create a platform. We used a hot glue gun to keep the rocks in place.

## 2

### ROCK STORY

**How to:** Paint rocks with whimsical images that will inspire the imagination. Children can start a story by pulling a painted rock from the bag. The next part of the story is prompted by another rock, and so the story carries on.

Resene Curious Blue

Resene Bombshell

Resene French Pass

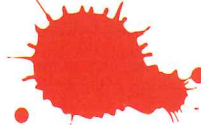

Resene Salem

Resene Gold Dust

Resene Silver Aluminium

Resene Trinidad

Resene Aviator

### 3 OUR FAMILY ROCKS

**How to:** We chose rocks of different sizes and shapes to represent each member of the family. When allowed to dry between layers, Resene paints work exceptionally well for rock painting, even at this level of detail. We used a black sharpie for outlines.

### 4 NOUGHTS AND CROSSES

**How to:** We used Resene Silver Aluminium and Gold Dust to give these rocks a touch of glamour. Noughts and crosses are ideal for playing either outside or on the lounge floor.
