

1 mr mohawk

We've had our eyes on this outrageous rainbow fur for a while. It wasn't cheap, but we just needed a small amount to create an instant mohawk.

2 watching you!

There's huge potential for fun with this one. First we cut out bushy eyebrows from felt. Using the eraser on the end of a pencil as a stamper, we painted polka dots using Resene Dizzy Lizzy (green) and Turbo (yellow). The sew-on eyes went on first, with the brows positioned behind.

3

flower power

We cut flower shapes in two different sizes from felt, used a pen for dotted detailing, and sewed the flowers in place with a cute petal-shaped button.

4 pompom mania

These pompoms came in a pack of assorted colours and sizes, so it was a case of instant impact once they were sewn on. Pompoms the kids made themselves would be even better.
