

Seeing red!

Feeling blue?

Green with envy?

Pale with fear!

**Don't be -
Resene EzyScheme
is here to help**

Resene

the paint the professionals use

We know 🎯 that choosing the
right colours can 🚫 be difficult,
if not downright scary, ⚠️ which
is why 😊 Resene have a range
of colour tools 🎨 plus Resene
EzyScheme Colour Professionals
👩🏻🔧 to help you develop 🌐 the
right colour 🎨 scheme for
your 😊 next project.

Don't worry, colour won't bite

Colour schemes need inspiration. And the best way to get inspired is to check out www.resene.co.nz (NZ) or www.resene.com.au (AUST), decorating magazines and colour charts. Collect samples of colours and swatches you like as these will help you to mould the right colour scheme.

You can even check out different colour combinations electronically using **Resene EzyPaint**, our virtual painting software, free to download from the Resene website or buy or borrow a copy on CD from any Resene ColorShop.

To help with inspiration, Resene have assembled a collection of projects from DIY families. Showcasing every room, plus exteriors, you can find free decorating ideas from real homes owned by real people.

Pictures that appeal can be printed and used as a reference when selecting materials. The Resene Inspiration Gallery is available free to view online at www.resene.co.nz/homeown/decorating_inspirations/index.htm.

Now you're inspired it's time to check with your local ColorShop to find the **Resene EzyScheme Colour Professional** staff member nearest you (or see the details overleaf). You can call your local Resene ColorShop then gather up your samples and swatches for an in-store consultation or book a site visit* with a Resene colour professional where they will visit the project and work on the colour scheme with you then provide you with a schedule of recommended colours and colour swatches. In-store assistance* is provided free of charge though it's best to ring the local store first, check when the colour focused staff are available and make a booking for a consultation.

The Resene EzyScheme Colour Professional will work with your vision of what you are trying to achieve and help you to navigate your way through the myriad of options to create a blend that suits your lifestyle, your space and you.

Once you've made your selections make sure you try them out with Resene testpots. It's a small price to pay to know that the colours you have selected will look right in the area you are planning to paint.

Remember, there's no need to feel hemmed in by colour charts - if the colours on the charts don't match your dream colour simply bring in a sample of the colour you'd like (preferably bigger than a 20 cent coin) and Resene staff will use the **Resene Total Colour System** to develop a colour match for you.

Once you've developed the scheme make sure you get your selected colours tinted into Resene premium paint for the ultimate finish.

**Your local Resene EzyScheme
Colour Professional is:**

Don't forget, Resene staff are trained to help you and while you're welcome to visit your local ColorShop, if you prefer you can call 0800 RESENE or email advice@resene.co.nz (NZ); 1800 738 383 or email advice@resene.com.au (AUST) to get technical advice in the comfort of your own home.

* Resene EzyScheme Colour Professionals may not be available at all locations at all times. Site visits are available in selected areas only and do attract a Resene EzyScheme colour consultancy fee - check with staff when you make your booking.
