

Resene ProSelect Colour Concentrate

Developed specifically for professional flooring contractors, Resene ProSelect Colour Concentrates use durable coloured pigments (not dyes) and are designed to be added to the Resene ProSelect Stain Base. Combinations of different colour concentrates allows a vast colour range to be achieved putting the control back into the flooring professional's hands.

Resene ProSelect Colour Concentrate samples mixed, diluted and applied to Bleached Australian Oak (Oak (aka Victorian Ash/Tasmanian Oak))

Mixing

For use by experienced professional applicators only. Shake well before use. Add Resene ProSelect Colour Concentrate to achieve desired colour and strength. Shake or stir well until colour is even. Best used within 48 hours after adding colour concentrate to the ProSelect Stain Base.

Dose Rate: Typically 10% (by volume) is suitable for most timbers. Up to 20% (by volume) can be added to achieve a stronger colour effect.

Precautions
