

Damasks, quatrefoils, pinstripes and regal-looking designs in both timeless colours like red, blue and grey and fashion colours like teal and pink – the face of traditional wallpaper designs is changing with the times.

These classic wall treatments can be teamed with contemporary accessories and furnishings for an updated look. Add a clean-lined velvet sofa, minimalist dining table or an industrial-style light fixture, and suddenly something that may have been seen as an outdated print looks up-to-the-minute and classy.
