

Design in colour

Warm whites and soft greens create a gentle scheme in this cottage renovation by Megan Edwards.

Megan Edwards' designs pay careful attention to the fall of light and the way a room feels. The same goes for her approach to colour. In this Eden Terrace cottage renovation in Tāmaki Makaurau, hallway walls of earthy Resene Albescent White draw you into the light-filled living room in Resene Quarter Rice Cake.

Bedrooms are a variety of soft, natural colours – Resene Lemon Twist, plus Resene Quarter Crisp Green and Resene Sandspit Brown from the Karen Walker Paints collection – further connecting the home to its redesigned garden. The front door delivers a jaunty shot of Resene Tacha; Resene Desperado flags the WC. Outside, original weatherboards in gentle Resene Quarter Friar Greystone sit alongside a new link in Resene Ironsand.
