GET TO WORK

While the way we work today has greatly reduced the need for a separate home office, having a dedicated space or zone can help with productivity and concentration levels.

Surrounding yourself with the right colours at home can aid your concentration and stimulate creativity while you work. If you're a confident type, surround yourself with oranges, such as Resene Twisted Sister. If you are a strategic thinker, go for blues and muted tones, such as Resene Remember Me. If you're easily distracted, cool neutrals are a safe bet. Keep things simple with Resene White Pointer or Resene Sea Fog.

The Resene colour collection includes the latest designer paint colours. Available from Resene ColorShops and resellers (resene.co.nz/colorshops or 0800 737 363). Please view a physical Resene colour sample before making your final choice.
