

FEELING FUCHSIA
 Much like its botanical counterpart, a fuchsia hue brings an unassuming joy to the eye. Channel cheeks flushed with a sheer layer of blush with Resene Rouge and Resene Paper Doll, and let the floral bouquet imbue your sartorial senses. Opt for monochromatic ensembles in a pretty pink palette with shades like Resene Smitten, Resene Colour Me Pink and Resene Scrumptious.

MAKE IT MAGENTA

The cooler days have brought with them a renaissance for the humble rose palette. Millennial pink is enjoying a vibrant refresh as the colour-of-the-moment; think baby pinks and rich aubergines, which make as much of a statement on the runway as on the walls of your abode.

PURPLE REIGN
 Once reserved for members of society's uppermost echelons, the time has come again for purple to take its rightful place at the throne. A statement splash of plum — like Resene Violent Violet — will make for a regal moment at home, however look to the high-octane hues of Resene Boogie Wonderland, Resene Daisy Bush and Resene Seance to capture the glamour of the noughties.
