

# Looking sharp

*Charcoal gives outdoor living edgy appeal*

## CONTEMPORARY COOL

Dark house exteriors and dark fences lend a cool sophistication to an outdoor living area and allow brighter accessories to really pop. When choosing dark exterior colours, ask for Resene CoolColour paints and stains as they reflect more UV heat and help protect the substrate. A dark fence or wall visually recedes, creating a shadowy backdrop for plants, or if your courtyard is small, it can make the space appear larger. Add a pale trellis or screen slightly in front for a layered effect. Wood stains always look great outside; Resene Woodsman Greywash gives a particularly on-trend look.

Other fun colours to try as accents are orange, turquoise and yellow.

Wall in Resene Porter, trellis in Resene Woodsman Light Greywash, deck in Resene Woodsman Mid Greywash, chair in Resene She'll Be Right and plant pots in Resene She'll Be Right, Resene Away We Go and Resene Cleopatra.
