

# Well spiced

Create a tasty interior with warm cinnamon shades

## KEEP IT COSY

Toasty tones of cinnamon, nutmeg, turmeric and cardamom have arrived in perfect time for winter. As part of the trend towards warm browns and terracottas, these Resene hues add visual warmth to a room along with a sense of optimism and energy. Earthy colours suit a more minimal approach with simple shapes for furniture and ornaments, and less clutter for a zen-like feel or a look that has eco rustic leanings. Use globally inspired elements like a kilim rug and plenty of woven textures for a sophisticated yet laid-back look. Rooms decorated entirely in warm colours look dramatic but adding cooler toned accents relieves the intensity.

To balance such rich colours, use accents in grey, dusty green or inky blues.

Back wall in Resene Dark Buff, shelf wall in Resene Korma, floor in Resene Eighth Drought, coffee table and console tops in Resene Twine, vases in Resene Alpaca (tall) and Resene Gold Coast (short), DIY artwork in Resene Korma and Resene Gold Coast and bowl in Resene Cod Grey.
