WINNER Nº 1

MAKING an ENTRANCE

Robyn George, the first winner of our Making an Entrance 2024 competition with Resene, says she's lost count of how many people have stopped during a stroll down her street in Auckland's Devonport to say how much they love her front door. Robyn, who has a Master of Fine Arts, says she has always been entranced by colour, and it took six tries before she settled on Resene Beauty Bush for the door of the late-1880s cottage she shares with her husband Dave. The colour pairs beautifully with weatherboards in Resene Half Robin Egg Blue. And if you look closely at the picture above, you'll see one picket paling in the fence painted the same colour, a quirky touch which often gets a chuckle from passersby.
