

**NB. This chart is from the
Resene historical file.
Please refer to current
Resene colour charts
for the latest colour options**

I believe that colour is best when it sets a mood and prompts an emotion but isn't necessarily the first thing you notice. I love dusty, slightly chalky, worn looking colours and with this chart I've presented a selection of my favourites; many of them inspired by my local beach, Bethells Te Henga. I hope they capture some of its unique and intrinsic haziness and complexity.

Modern living is all about combining nature with technology and in order to create these colours I've brought together the mood of nature's palette with Resene's expertise.

In the same way that the colours in nature feel unprecedented and incomparable I'm sure that these colours will inspire you to create a new and unique environment of your own.

Windblown Green	Pastel	5GR75	33

Note 1: The reflectance value of a colour indicates the amount of light and heat that a colour will reflect. Black has a reflectance value of 0% and absorbs all light and heat. The surfaces are consequently very dark and can get very hot. In contrast, white has a reflectance value of 100% and keeps a building light and cool. All colours fit within these two extremes.

Note 2: Tones listed above are subject to change if colours are reformulated.

Note 3: This colour chart is finished in Resene Zylone SpaceCote, low sheen waterborne enamel, a product ideally suited for kitchens, bathrooms and broadwall areas.

Karen Walker colours are available exclusively in Resene premium paints from Resene ColorShops nationwide.

The Resene product range includes a full selection of interior and exterior paints, so no matter what you paint, you can paint it with Karen Walker.

Always use testpots to confirm your colour choices in the area you are planning to paint. Karen Walker colours are available in convenient 55ml testpots from your local Resene ColorShop.
