

Resene colour charts are updated regularly. This colour chart file is part of the colour chart archive, which we provide so you can view Resene colours that have been available over the years. Most older colours can still be tinted – check with your Resene ColorShop team if you need an older colour for your project.

Metallics and
Special Effects

Explore a range of shimmering colours with Resene's innovative Special Effects collection of metallic and pearlescent finishes.

With systems developed for virtually any use, Resene Special Effects will transform and add an extra dimension to a wide range of areas from exterior concrete and steelwork through to interior feature walls, doors, joinery and furniture.

Best System

Resene Imperite IF 503, a spray applied high performance coating, is more durable than Resene Enamacryl Metallic in exterior situations and is preferred especially over new steelwork.

Enamacryl Metallic, a waterborne alternative to Imperite IF 503, is recommended over exterior concrete and plaster. However, it should not be applied over fresh concrete. Alkalinity from concrete can attack the aluminium flake and thus destroy the integrity and appearance of the coating. Enamacryl Metallic is also the preferred product for interior work because of its Environmental Choice approval and low VOC.

Resene Metallics are different in chemistry to standard acrylics and epoxies and need to be handled with precision and care. Slight variations in colour can occur between Resene Enamacryl Metallic and Imperite IF 503 due to their inherently different film forming properties.

Resene Pearl Shimmer and Resene Pixie Dust are acrylic pearlescent glazes ideal for creating shimmering wall finishes and softly sparkled finishes to add visual interest and diversity to any scheme. Always used in conjunction with a tinted basecoat, both pearlescent finishes are ideal for exterior and interior areas, including trim and joinery.

Kaleidoscopic Colours

Shifting walls of colour are now possible with the launch of Kaleidoscope, a range of paints that change colour before the eye as if by magic. Call 0800 108 008 for more information on this intriguing finish.

Complete the Look

Resene Automotive and Performance Coatings can supply coatings for furniture tinted to the Resene Special Effects range - the perfect complement to your Resene Special Effects finish.

Colour on building exterior: Resene Metallic tinted to Gold Dust.

Colour on cupboards: Resene Metallic tinted to Sputnik.

Effect on wall: Resene Kaleidoscope colour shift special effect finish.

In New Zealand: 32-50 Vogel Street, Lower Hutt, PO Box 38-242, Wellington Mail Centre

In Australia: PO Box 785, Ashmore City, Queensland 4214
