

Resene colour charts are updated regularly. This colour chart file is part of the colour chart archive, which we provide so you can view Resene colours that have been available over the years. Most older colours can still be tinted – check with your Resene ColorShop team if you need an older colour for your project.

To view the latest Resene colour charts, visit www.resene.com/colour-charts

Resene

The advertisement features a central green teardrop-shaped logo with the word "Resene" in white script and "DEPENDABLE" in white capital letters below it. Surrounding the logo are several paintbrushes, each with a different colored brushstroke extending from its bristles. The colors include blue, yellow, brown, red, and dark green. The background is white with these colorful brushstrokes radiating from the center.

RESENE

SEMI-GLOSS

EXTERIOR - INTERIOR LATEX PAINT

Resene is the longest established latex paint on the New Zealand market. Resene Semi-Gloss requires no sealer or undercoat. Two coats of Resene Semi-Gloss will give full coverage and lasting protection.

Where to Use

Outside

Resene Semi-Gloss may be used on the following surfaces:
Concrete, brickwork, concrete blocks, asbestos cement, plaster and other masonry surfaces.

Inside

Resene Semi-Gloss may be used on the following surfaces:
Concrete, brickwork, concrete blocks, asbestos cement, cement plaster, gibraltar board, fibrous plaster, woodwork, wallpaper, etc.

Coverage

Resene Semi-Gloss covers approx. 400 to 600 square feet per gallon.

Application

Resene Semi-Gloss can be applied by brush, roller, or spray, and all can be washed in water.

Also in Satin Finish

The colours shown on this chart can be supplied also in Resene Satin Finish, where a flat finish is desired.

Special Colours

We offer a same-day service for special factory-mixed colours. We can match to any desired shade in minimum quantities of one gallon at no extra charge.
