

Enjoy the Resene Promise of Quality Guarantee

In a world of ever changing values, there are still some things upon which you can rely. One of these is that Resene will continue to strive to produce the best paints that it possibly can, benchmarked against the highest international standards.

Our products are guaranteed to provide film integrity and adhesion for the expected life of the paint system¹.

This is the Resene Promise of Quality Guarantee.

We will deliver top quality paint, advice and colour, developed specifically to meet our customers' needs.

This promise is backed by our commitment to leading edge paint technology, strong and exciting colours, and reducing the impact of paint on the natural environment.

Should Resene fail to deliver on our promise in any way, we will unhesitatingly acknowledge our responsibilities.

A handwritten signature in black ink, appearing to read "Nick Nightingale", with a long horizontal flourish extending to the right.

Nick Nightingale
Managing Director, Resene Paints Ltd

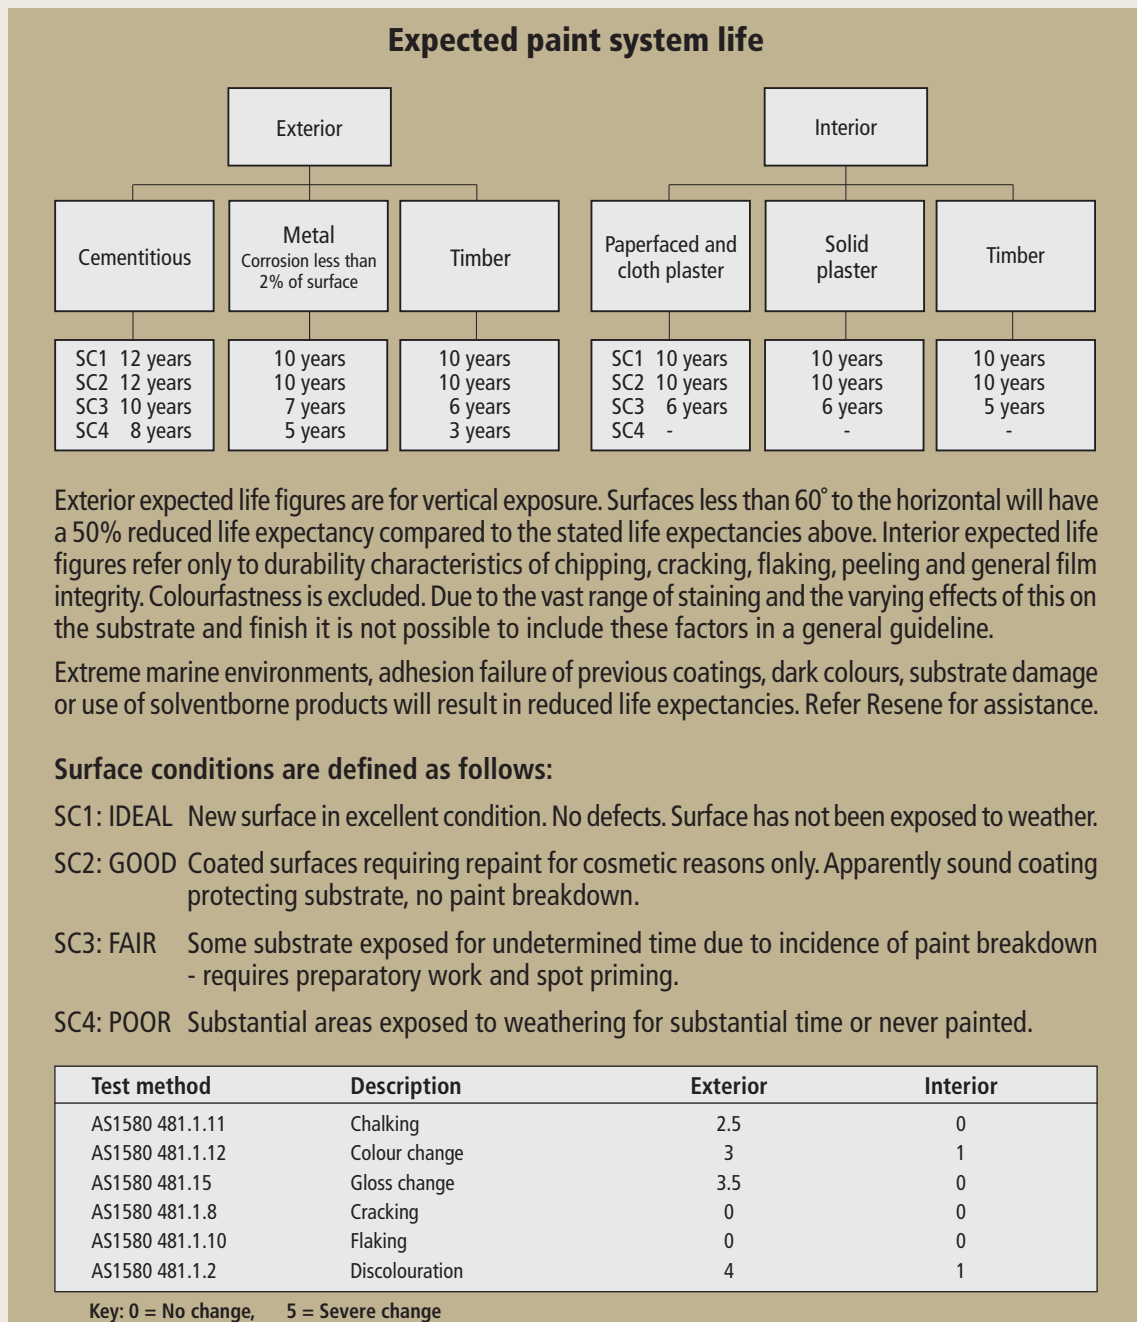

¹ See the 'Resene expected paint system life' chart (over) for the expected life of the paint system. Should the paint fail to provide the film integrity and adhesion detailed, Resene will provide replacement paint to rectify the affected area upon presentation of the original proof of purchase for the Resene paints used on the project. This Promise of Quality Guarantee is transferable to a new owner should the property be sold within the expected life of the paint system provided the new owner holds the original proof of purchase for the Resene paints used.

Resene expected paint system life

The expected paint system life chart below indicates the expected life of a well maintained pigmented waterborne paint system applied to a properly prepared surface to the specifications of Resene before recoating is required. Well maintained means regular washing of exterior surfaces and repairing any obvious damage. See the Resene Caring for your paint finish brochure for recommended cleaning instructions.

For example:

Painting an EXTERIOR building. The concrete WALLS are to be painted and the surface condition is described as 'IDEAL' (SC1), giving the indication that 12 years could be expected provided regular washing and repairs are carried out during this time. After this the surface will require painting. The box at the bottom of this page gauges the expected surface condition at the end of the stated lifetime. The system for example should have received very little change (0) in surface cracking but it would be expected to have suffered colour change (3).

Important conditions of guarantee: Cannot in any way be construed to be a joint and several guarantee. Consequential damages are excluded. Full guarantee terms apply for the first five years, and a diminishing pro-rata guarantee for the remaining years of life expectancy.

If in doubt about any aspect of your specification or project please contact Resene.
