Resene Walk-on is a general purpose flooring and painting paint based on tough solids giving a good
matt finish, good paint retention, and alkali resistance in a one-pack
product. Ideal for use on stairs, drinkings, concrete, pavers,
similarly painted timber, composite boards and interior
rooms.

Resene Walk-on also contains acrylic resins to provide: a
Rust-free finish. Oil-based paints may give a
rusty stain. A good finish and good painting
retention. Use Resene Walk-on in applications
where rust is a problem. A good finish and good painting
retention.

Resene Canvas Colours are also available in
Resene Opaque. These are high performance two-pack systems as
a two-pack paint system. Consider using a Resene Canvas Colours
system in applications where a two-pack paint system is
required.

Resene Furniture and Decking Oil is a two-pack
system for interior and exterior use on a variety of
surfaces. Resene Furniture and Decking Oil is
suitable for use on wood, metal, and
plastics. The oil is applied to the
surface with a brush or a
roller. The oil is then
allowed to dry before
applying the
second coat. This
process is repeated
two or three times, or
until the desired
finish is achieved.

Resene Woodman is a special purpose
for a variety of
surfaces. Resene
Woodman is
suitable for use on
timber, metal, and
plastics. The oil is
applied to the
surface with a
brush or a
roller. The oil is then
allowed to dry before
applying the
second coat. This
process is repeated
two or three times, or
until the desired
finish is achieved.

Resene Kwila Timber Stain is a two-pack
system for interior and exterior use on
a variety of
surfaces. Resene Kwila Timber Stain is
suitable for use on wood, metal, and
plastics. The oil is applied to the
surface with a brush or a
roller. The oil is then
allowed to dry before
applying the
second coat. This
process is repeated
two or three times, or
until the desired
finish is achieved.

Resene Concrete Stain is a one-pack
system for interior and exterior use on
a variety of
surfaces. Resene Concrete Stain is
suitable for use on wood, metal, and
plastics. The oil is applied to the
surface with a brush or a
roller. The oil is then
allowed to dry before
applying the
second coat. This
process is repeated
two or three times, or
until the desired
finish is achieved.

Resene three-pack system for interior and exterior use on
a variety of
surfaces. Resene three-pack system is
suitable for use on wood, metal, and
plastics. The oil is applied to the
surface with a brush or a
roller. The oil is then
allowed to dry before
applying the
second coat. This
process is repeated
two or three times, or
until the desired
finish is achieved.
Resene Tennis Court Coating (see Data Sheet D303) is a 100% acrylic coating filled with graded silicas designed for use on both concrete and composite courts to give a durable, tough topping with excellent traction and even 'slow' bounce properties tested to ITF standards. It may be used to upgrade bare bitumen or bare concrete courts or to maintain previously painted tennis courts. Environmental Choice approved Resene Tennis Court Coating is easy to apply by brush, synthetic fibre roller, spray or squeegee and may be applied by either volunteers or professional contractors.

Both Resene products suitable for use on tennis courts - Resene Tennis Court Coating and Resene Blacktop - dry quickly ensuring that tennis courts may be coated quickly and easily and be back into action within a few days. Use Resene Lumbersider white (see Data Sheet D34) for court markings.

Some colours available only on request (minimum volumes may apply). Other colours can also be formulated on request (minimum volumes may apply).

Resene Blacktop (see Data Sheet D304) is a cold-applied, heavy-bodied, slip resistant topping for use on asphalt. Based on a bitumen emulsion with graded fillers, Resene Blacktop dries to produce a durable weather and wear resistant finish. For best results apply with a Resene hi-solids roller. Ideal for use on paths, driveways, tennis courts and other recreational areas. Environmental Choice approved.

Some colours available only on request (minimum volumes may apply).

Colours are as close as printing process allows.
Ground markings are a critical part of all field games. Resene manufactures specially formulated Resene Grassmarking Paint, suitable for marking out lines and field areas on grass without harming the grass itself.

Available in 10 litre pails of white, other colours are available on request (minimum volumes may apply). Depending on the concentration of colour required, Environmental Choice approved Resene Grassmarking Paint may be thinned by 2-3 parts water making it a cost-effective option for all field marking projects.

Products for all projects
Resene has a comprehensive range of products and decorating tools for all areas in and around your home or business, including products that are ideal for all those backyard projects.

Keep your place cooler with a Resene CoolColour™
If you are planning to use dark colours outside consider investing in a Resene CoolColour™. Colours made using Resene CoolColour technology reflect more heat than a standard colour reducing the stress on the coating, substrate and building keeping them cooler. Check with Resene ColorShop or reseller staff to see whether a Resene CoolColour is right for your project.

Colour timber
Resene LumberSider will add colour to all wooden surfaces in next to no time. Wash your fence or deck down using Resene Paint Prep and Housewash (see Data Sheet D812) and rinse off with water. Treat existing mould with Resene Moss & Mould Killer (see Data Sheet D800) ensuring you rinse off the solution with copious amounts of freshwater. Allow to dry, then coat with Resene LumberSider.

Complement with a stained finish
For a more natural look, try Resene Waterborne Woodsman (see Data Sheet D57a), a transparent wood finish that allows you to recolour your timber while still allowing the natural grain to show through. Suitable for all exterior wood surfaces, including fences, gates, weatherboards and planters. See the Resene Exterior woodcare chart to choose from the range of transparent wood stains in limed, traditional and brights.

Colour your planters
Textured, colourwashed, painted or stained, Resene have a wide range of products suitable for decorating planters. Available in hundreds of colours. Resene testspots allow you to add colour to your garden planters without being left with litres of excess paint. For a more earthy finish use Resene Aquashield (see Data Sheet D601), a dead flat mineral effect finish, available in a wide range of natural colours.

Caring for your paint finish
Annual washing will help maintain the fresh appearance of your paintwork. Follow the recommendations in the Resene Caring for your paint finish brochure or on the Resene website to keep your paint finish looking its best.

Trial first
Always trial your selected product on a representative surface to ensure it gives the result you want on the actual surface you are painting or staining before commencing the full project.
