

Here's 3 ways Resene Customfloor and Particle Board Sealer will benefit you.

Positive dry
Uniform gloss
Uniform colour

- 1. POSITIVE DRY.** The unique binder of Resene Customfloor and Particle Board Sealer seals in the fibres, wood chips and problem-causing waxes which can dissolve through ordinary sealers and cause drying problems.
- 2. UNIFORM GLOSS.** The same action provides a consistent non-porous surface which allows all types of varnishes (e.g. Poly Flat, Satin and Gloss, or Polythane) to cure to a uniform surface gloss.
- 3. UNIFORM COLOUR.** The low penetration of Resene Customfloor and Particle Board Sealer provides a light, even colour surface without the dark patches associated with penetrating sealers.

Resene Particle Board Sealer is the only sealer which Canterbury Timber Products have endorsed for their Customfloor.

Available at these Resene Color Shops.
