

# Here's 4 reasons why Resene Galvo-One is the best Galvanised Iron Primer you can use...

One Pot  
Easy Application  
Non critical Recoat time  
Lead-Free

- 1. ONE POT** product means you don't have to bother about finding a suitable container in which to mix carefully measured components. Galvo-One is uncomplicated and trouble-free.
- 2. EASY APPLICATION** by brush, roller, conventional or airless spray with complete safety to personnel.
- 3. NON-CRITICAL RECOAT TIME.** Galvo-One has a dry time of five hours at 18°C and can be recoated at any time from twelve hours to three months with most systems i.e. Hi-Glo Acrylic Roof, Alkyd Roof and Mica Bond.
- 4. LEAD FREE** so that it is ideal for roofs used for the collection of drinking water.
