ESCAPE... INDOORS

Nature has always had a strong influence on choices, and never more so than now.

Bring nature indoor with blues, greens and pops of colour that would be at home in a flower garden; nature provides a beautiful palette to choose from. Green is not the only hue in nature. Think of the splendour of sunsets and sunrises, the bright blooms of a spring garden and bring them into your home with splashes of your favourite bold RESENE paint colours and accessories.

Visit your local Resene ColorShop or go to resene.co.nz for more ideas and inspiration.
