Resene Alumastic is formulated with a unique blend of low-molecular weight resins, penetrants and surface active agents. This allows excellent wetting and penetration of rusted steel surfaces. Reaction occurs on the surface, setting the components into a high molecular weight, tough durable polymer. Self-priming maintenance coat over steel, rusted steel and galvanised steel.

General

- **Data Sheet (DS)** is available and must be consulted before use.
- In every case it is recommended that the current Resene Data Sheet is consulted for product data and surface preparation information.
- This product contains a Base and Hardener, which must be mixed in the required ratio using an air or explosion-proof power mixer before application. Mix of the components separately before blending them together. Add the total contents of the Hardener to the total contents of the Base container. Once uniformly mixed, allow for the stand recommended induction time prior to re-mixing and applying.
- Thinning requirements may vary according to application method, equipment and environmental conditions. If thinning is required add Resene Thinner No.6 or Resene Thinner No.12. After components have been blended and thoroughly re-mixed using the power mixer: ensure correct wet film thickness is applied to achieve the thickness. Allowance must be made for any thinner added.
- Use of incorrect thinner may have an adverse effect on application and performance.
- Drying is affected by low temperatures and high humidity. Cure time is considerably slowed below 10˚C.
- In every case it is recommended that the current Resene Data Sheet is consulted prior to application.

**WARNING**

Keep out of reach of children. Causes skin irritation. May cause respiratory irritation. Sustained exposure may cause burns or organs damage through prolonged or repeated exposure. Toxic to aquatic life and long lasting effects.

**PRECAUTIONS**

- **DO NOT BREATHE DUST, FUMES, GAS, MISTS, VAPOURS, SPRAYS. DO NOT INHALE OR BREATHE IN DIRECT CONTACT WITH THE SKIN.**
- **There is original or corrected (deliberately) contaminated, highly viscid, or a low-grade liquid or solid material, and is classified as a POISON.**
- **Do not use for the production of incorrect product to substrate of incorrect colours. For further painting advice on to newspaper before washing out brushes/rollers with the recommended thinner added.**
- **For full technical instructions see Data Sheet RA402.**
- **Benzene 10-50 gms/L. Copolyer 140-280 gms/L, Glycidyl Neodecanoate 70-150 gms/L, 1,2,4-Trimethyl benzene molecular weight 280-570 gms/L, Bisphenol F Glycidyl Ether/Formaldehyde or call Resene 0800 737 363.**
- **AUST: POISONS INFORMATION CENTRE 131 126 or call Resene 1800 738 383.**
- **Further information can be obtained from the local Resene branch or call 0800 737 363.**
- **When seeking medical advice take this container with you.**
- **IF INHALED: Remove to fresh air and keep at rest in a position comfortable to breathe. Get medical attention/advice.**
- **IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and continue rinsing for at least 2 minutes. In case of incomplete contact lenses and boracic acid.**
- **If FROSTY: washout with water for several minutes. Remove contact lenses if present and may in to do. Continue rinsing. If eye irritation persists consult a doctor.**
- **If IN SKIN (or hair): Take off contaminated clothing and wash before reuse.**
- **IF SWALLOWED: Immediately call a POISON CENTRE/doctor/physician/first aider.**
- **FIRST AID**

Resene checklist on environmentally acceptable methods for cleaning intrinsically safe equipment. Use only non-sparking tools. Take precautionary measures for the protection of receiving equipment. Use explosion-proof electrical, ventilating, lighting and protective clothing, eye and face protection. Ground or bond container and do not breathe dust, fumes, gas, mists, vapours, sprays. DO NOT INHALE OR BREATHE IN DIRECT CONTACT WITH THE SKIN. DO NOT BREATHE DUST, FUMES, GAS, MISTS, VAPOURS, SPRAYS. DO NOT INHALE OR BREATHE IN DIRECT CONTACT WITH THE SKIN.

**UN NO. 1263 - PAINT RELATED MATERIAL**

**FLAMMABLE LIQUID AND VAPOUR**

Keep away from heat, hot surfaces, sparks, flammable gases and other ignition sources. No smoking.
