Resene Alumastic is formulated with a unique blend of low-molecular weight resins, penetrants and surface-active agents. This allows excellent wetting and penetration of rusted steel surfaces. Reaction occurs on the surface, setting the components into a high molecular weight, tough durable polymer. Self-priming maintenance coat over steel, rusted metal and galvanised steel.

General
- Safety Data Sheet (SDS) is available and must be consulted.
- In every case it is recommended that the correct Resene Data Sheet is consulted for product data and surface preparation information.
- This product comprises a Base and Hardener, which must be mixed in the required ratio using an air-exposed power mixer before application. Mix each component separately before blending them together. Add the total contents of the Hardener container to the total contents of the Base container. Once uniformly mixed, allow to stand for the induction time. If the temperature of the substrate should be 20°C, apply the “Dry Pour”.
- “The Dry Pour” requirement can be presumed to be satisfied if a thin clearly defined film of water applied to the cleaned surface with a damp cloth evaporates within 15 minutes.
- Following appropriate preparation, surfaces must be dry and dust free prior to painting.
- This product may be used to paint a wide variety of surfaces. If the surface you propose to paint is porous or not satisfied, contact your local Resene ColorShop or the Resene website for further advice.

SAFETY PRECAUTIONS
- EAT, DRINK OR SMOKE WHEN USING THIS PRODUCT.
- DO NOT BREATHE DUST, FUMES, GAS, MISTS, VAPOURS OR SPRAYS.
- DO NOT TREAT INFLAMED OR SKIN INJURY WITH UNPROTECTED HANDS.
- SKIN ABSORPTION MAY BE HARMFUL.
- EYE CONTACT MAY BE HARMFUL.
- DO NOT INHALE.
- keep out of the reach of children.
- USE APPROPRIATE PERSONAL PROTECTIVE EQUIPMENT;

HARMFUL IF INHLED
- Harmful to aquatic life with long lasting effects.
- May cause skin corrosion or irritation.
- May cause skin sensitisation.
- Causes skin irritation. May cause damage to organs.
- May cause an allergic skin reaction. Causes serious eye irritation. May cause damage to organs.

FIRST AID
- IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if worn, after first rinse. Continue rinsing for at least 15 minutes. Get medical advice or attention.
- IF INGESTED: Rinse out mouth with water. Do NOT induce vomiting. Get medical advice or attention.
- IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. Get medical advice or attention.

PRECAUTIONS
- For full technical instructions see Data Sheet RA402.
- Use foam, carbon dioxide or dry chemical powder. Refer to your local Council for disposal of unwanted paint.
- Clean up
- Clean up thoroughly.
- Clean up
- Clean up

IN NO. 1263 - PAINT RELATED MATERIAL

| COMBUSTIBLE LIQUID | Keep away from heat, hot surfaces, sparks, open flame and other ignition sources. No smoking.

Quick check

- Name: Resene Alumastic Hardener.
- Mixing ratio: 1 part Base: 1 part Hardener (by volume).
- Induction time: 10-15 minutes.
- Pot life: 4-6 hours at 21°C. Increased temperatures will decrease pot life.
- Dry time (maximum): 12 hours at 18°C (to take light foot traffic). Drying is affected by low temperatures and high humidity.
- Thinning: Resene Thinner fluid.
- Clean up:
- Resene Thinner fluid.
- Epoxy and polyaminoamides have been known to cause dermatitis and usually precautions to avoid skin contact should be taken.
