Resene Aquapel and Terracotta Sealer is a water repellent treatment formulated to help control efflorescence and give a long-term waterbeading effect to deter water penetration. Use on its own or as a primer under waterborne coatings. Will not prevent the penetration of driving rain or water under hydrostatic pressure.

**Use on:** Most porous building materials, terracotta and as a protective finish over Resene FX Faux Rust Effect.

**Gloss level:** None, fully penetrating.

**Coverage:** Will vary according to substrate porosity, but typically less than 2 square metres per litre.

**Dry time (minimum):** Penetrates - up to 48 hours.

**Recoat time (minimum):** 6 hours.

**Usual number of coats:** One.

**Application method:** Low pressure spray is best, brush or roller.

**Clean up:** Water when wet; mineral turps when dry.

**Colour range:** Clear.

Product ingredients will settle on storage. Shake well to reincorporate before application.
SAFETY PRECAUTIONS

DO NOT EAT, DRINK OR SMOKE WHEN USING THIS PRODUCT.
Store in original or correctly labelled container, tightly closed, in a well ventilated area indoors, away from foodstuffs, at an ambient temperature and avoid freezing conditions. Wash all exposed external body areas thoroughly after handling. Avoid release to the environment.

FIRST AID
IF SWALLOWED: Rinse mouth. Call a POISON CENTRE, doctor or first aider if you feel unwell.
IF ON SKIN (or hair): Wash with plenty of soap and water. If skin irritation occurs get medical advice.
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do so. Continue rinsing. If eye irritation persists get medical advice or attention.
Further information can be obtained from AUST: POISONS INFORMATION CENTRE 131 126 or call Resene 1800 738 383. NZ: NATIONAL POISONS CENTRE 0800 POISON (764 766) or call Resene 0800 737 363.

SPILLS: Wear appropriate protective clothing. Absorb with sand or earth. Collect and seal in properly labelled drums. Do not allow to enter drains or to run off into waterways. Refer to local waste management authority.

CLEANING PAINT EQUIPMENT: Brush/roll out as much paint as possible onto newspaper before washing brushes and rollers. Dispose of wash-up water onto grassy/unsealed area or into inside sink/basin, NOT into outside stormwater drain where it may harm fish in local waterways.

Preparation
- Ensure substrates to be coated are in sound condition, dry, free from dirt, dust, loose material, oil (including mineral oil based wood finishes or similar) and salt.
- If mould is present, treat with Resene Moss & Mould Killer (see Data Sheet D80). Flush clean with water.
- Remove accumulated windblown salt by washing with Resene Paint Prep and Housewash (see Data Sheet D812).
- If the surface you propose to treat is unsound or not referred to, try a small test area first or contact your local Resene ColorShop or Reseller.

Application
- Resene Aquapel and Terracotta Sealer can only be used over a porous surface that will allow the treatment to penetrate. It cannot be applied over a fully sealed surface then overcoated.
- Saturate the surface with Resene Aquapel and Terracotta Sealer.
- When coating pots, coat the inside of the pot and the outside of the pot.
- Remove any product that gets onto glass to avoid the risk of staining.
- If it starts to rain, immediately cease application and cover all treated areas that have yet to dry out.
- Maintain good ventilation throughout the drying and curing period to ensure the treatment is properly cured. Poor ventilation may inhibit curing and performance.
- Maximum hydrophobicity (or water repellency) develops after a few days weathering.
- Dilute 2:1 with water when using as a clear finish over Resene FX Faux Rust Effect.

Be PaintWise
For tips on responsible disposal of paint, cleaning equipment and minimising the impact of your decorating on the environment see the Resene website. Do not discharge any paint into the environment. Resene PaintWise (NZ) or paintback.com.au (Australia) accepts residual unwanted paint and packaging. Or contact your Local Authority for disposal information.
