**WARNING**

 colaboration and support from all involved parties.

As an expert in the field of environmental management, I have developed a comprehensive system to ensure the safe and efficient operation of this product. The system includes the following steps:

1. **Risk Assessment:**
   - Identify all potential hazards associated with the product and its handling.
   - Determine the appropriate control measures to mitigate these risks.

2. **Training and Education:**
   - Provide comprehensive training to all personnel involved in the handling and application of the product.
   - Ensure that all workers understand the safety data sheet and the associated guidelines.

3. **Environmental Compliance:**
   - Ensure that all operations are conducted in accordance with environmental regulations and best practices.

4. **Emergency Preparedness:**
   - Develop emergency response plans and procedures to address potential incidents.
   - Ensure that all personnel are trained in the use of emergency equipment and procedures.

5. **Monitoring and Evaluation:**
   - Regularly monitor the performance of the system to identify areas for improvement.
   - Evaluate the effectiveness of the system and make necessary adjustments.

By following these steps, we can ensure the safe and effective operation of the product and minimize any environmental impact. The system is designed to provide a comprehensive framework for managing the risks associated with this product and to ensure compliance with all relevant regulations and best practices.

---

**Be PaintWise**

- **Tips for a lower impact on the environment:**
  - Use water-based paints to reduce volatile organic compounds (VOCs).
  - Choose paints with low or zero VOCs to minimize air pollution.
  - Use recycled or environmentally friendly materials for your home.

---

**Paintwise Program:**

- **Objective:** To provide information and guidance on the impact of painting on the environment.
- **Scope:** This program includes tips on minimizing the environmental impact of painting, such as choosing low-VOC paints and recycling paint products.

---

**Resene ArmourZinc 110**

- **Grey:**
  - Single pack organic zinc rich primer.
  - Colours: Grey, White.

---

**Application:**

- **Recommendation:** Conventional spray. Small areas only may be brushed.

---

**Recommended dry film thickness (D.F.T.):**

- 75 microns per coat.

---

**Storage:**

- 6.3 square metres per litre at 75 microns D.F.T.

---

**Recoat time:**

- Minimum: 4 hours at 18˚C.

---

**Thinning:**

- Use of incorrect thinner may have an adverse effect on application and performance.

---
