Blacktop exterior

KEEP OUT OF REACH OF CHILDREN

BLACK
Resene Blacktop is a cold applied, heavy-bodied, slip-resistant topping for rejuvenating aged or worn asphalt. Based on a bitumen emulsion with graded fillers that dries to produce a durable, weather and wear resistant finish. Resene Blacktop is formulated to coat asphalt driveways, paths, tennis courts, playgrounds and recreational areas.

**Preparation**
- Ensure surfaces to be coated are in sound condition, dry, free from dust and loose material. Remove accumulated windblown salt by washing with Resene Paint Prep and Housewash (see Data Sheet DS82).
- Treat moss and mould with Resene Moss & Mould Killer (see Data Sheet D80).
- Waterblasting is the best surface preparation prior to coating surfaces.
- Wherever oil or grease are present ensure the surface to be coated is thoroughly cleaned using Resene Paint Prep and Housewash. Flush clean with water.
- Trim side grass and remove all weeds from the surface to be coated.
- Repair holes with a compatible filling system prior to resurfacing.
- Consult your Resene ColorShop or Reseller for advice on resurfacing very oxidised asphalt surfaces.
- This product may be used to coat a wide variety of surfaces. If the surface you propose to coat is unsound or not referred to, try a small test area first or contact your local Resene ColorShop or Reseller for advice.

**Application**
- Resene Blacktop should not be applied if rainfall is likely within the recommended drying period.
- Stir well with a wide flat stirrer before and during application.
- For best results use a Resene high solids roller.
- Pour Resene Blacktop in a long window 150-200mm in width, spread the product evenly over the surface to achieve the recommended coverage.
- If rapid drying is a problem during application, cool the surface to be coated by lightly misting with water. Apply coating as soon as surface water disappears.
- Avoid painting in hot sun.
- Recoat missed or pinholed areas before coating dries.
- Smooth any ridges immediately.
- Repeat procedure until the total area is covered.
- Do not allow roller to become depleted of wet product.
- A single coat is often sufficient. However faster drying will result from multiple application of thinner coats.

**Maintenance**
*(after a minimum of four weeks’ drying)*
See the Resene Caring for your paint finish brochure or the Resene website for full cleaning instructions.

**Be PaintWise**
For tips on minimising the impact of your decorating on the environment see the Resene website.

---

**Quick check**

**Use on:** Asphalt driveways, paths, tennis courts, play grounds and recreational areas.

**Gloss level:** Matt.

**Coverage:** 0.5-1 square metre per litre per coat. Coverage varies and is dependent upon surface porosity and profile.

**Dry time (minimum):** Touch dry: 4 hours. Pedestrian use: 6 hours. Vehicular use: 48 hours. Do not apply at temperatures below 10°C or when temperatures are liable to drop below this during the drying period. Drying is slowed by low temperatures and high humidity. Do not apply under damp conditions.

**Recoat time (minimum):** 4 hours.

**Usual number of coats:** One.

**Application method:** Resene high solids roller.

**Thinning and clean up:** Do not thin. Clean up wet material with water. Use Resene Brush Cleaner to remove dry product.

**Colour range:** Black, red, green.

**Before use:** Stir well with a wide flat stirrer.

Enjoy the Resene Promise of quality on premium paints. See your Resene ColorShop or the Resene website for a copy.

In every case it is recommended that the appropriate Data Sheet and Safety Data Sheet are consulted prior to application.

Please ensure that use of this product is compatible with the substrate and surface preparation method and that the colour in this container is the same as selected. When using multiple packs of this product on the same project please mix them together before use. Resene does not accept any responsibility for the application of incorrect product to substrate or the application of incorrect colours. For further painting advice and information, call 1800 738 383 (AUS), 0800 737 363 (NZ) or visit the Resene website.

**Be PaintWise**

- Read label before use. Keep out of reach of children.
- Do not eat, drink or smoke while using.
- Store in original or correctly labelled container, tightly closed, in a well ventilated area indoors, away from foodstuffs, either between 15°C-20°C or at a cool, constant temperature. Dispose of empty container safely. Consult Resene checklist on environmentally acceptable methods of cleaning equipment and disposing of unwanted paint. Do not contaminate any water supply.
