Broadwall 3 in 1 surfacer, sealer and finish coat

interior

Suitable for achieving a level 5 finish.

KEEP OUT OF REACH OF CHILDREN

WHITE
**WARNING**

Read label before use. Keep out of reach of children. This material is quite bland; with vapour, occasional skin contact and even minor ingestion having negligible hazard. Repeated skin contact may, and any eye contact will, cause irritation.

**PRECAUTIONS**

USE WITH ADEQUATE VENTILATION. DO NOT EAT, DRINK OR SMOKE WHILE USING.

Store in original or correctly labelled container, tightly closed, in a well ventilated area indoors, away from foodstuffs, either between 15°C-20°C or at a cool, constant temperature. Dispose of empty container safely. Consult Resene checklist on environmentally acceptable methods of cleaning equipment and disposing of unwanted paint. Do not contaminate any water supply. Avoid release to the environment.

**FIRST AID**

IF SWALLOWED: Rinse mouth. Call a POISON CENTRE or doctor/physician if you feel unwell.

IF IN CONTACT WITH SKIN (or hair): Remove/ take off all contaminated clothing and wash before re-use. Rinse skin with plenty of soap and water/shower. If skin irritation or rash occurs: get medical advice/attention.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do so. Continue rinsing. If eye irritation persists: get medical attention/advice. When seeking medical advice take this container with you.

When seeking medical advice take this container with you. Further information can be obtained from:

AUST: POISONS INFORMATION CENTRE 131 126 or call Resene 1800 738 383.

NZ: NATIONAL POISONS CENTRE 0800 POISON (764 766) or call Resene 0800 737 363.

For use as an interior surface preparation coating.

**PREPARATION**

• Ensure surfaces to be painted are dry, free from dust, grease, loose material and weak, powdery or uncurd jointing compounds.

• Fill cracks and holes with an appropriate filler before painting.

• Where staining is present the source of staining must be removed.

• Remove excess jointing compounds where possible by sanding down to a smooth surface and wipe with a damp cloth to remove dust.

• When preparing paperfaced plasterboard, avoid sanding the paper as this will cause fuming and unacceptable textural differences in the finish.

• Where the paper surface has yellowed due to prolonged exposure to light or is stained, use Resene Sureseal (see Data Sheet D42).

• Plasterboard must be prepared to an appropriate level of finish. Resene Broadwall 3 in 1 is recommended for critical lighting areas.

• All sanding dusts may be harmful and appropriate protection must be worn. In particular dusts from old lead or chrome-based paints or old building materials containing asbestos may be injurious to health if inhaled or ingested. Seek expert advice if the presence of these materials is suspected.

• This product is typically used on new plaster and plasterboard. If the surface you propose to coat is unsound or not referred to, try a small test area first or contact your local Resene ColorShop or Reseller for advice.

**APPLICATION**

• Refer to Resene Broadwall Application Guide for full application information.

• Resene Broadwall 3 in 1 may be applied by airless spray.

**Use on:** Interior paperfaced plasterboard and jointing compounds.

**Gloss level:** Flat.

**Coverage:** As a sealer – one coat at 7 square metres per litre per coat.

As a ceiling finish – one coat at 7 square metres per litre, allow to dry 1-2 hours then apply a second coat at 5 square metres per litre.

**Dry time (minimum):** 4 hours. Do not apply at temperatures below 10°C or when temperatures are liable to drop below this during drying period. Drying is slowed by low temperatures and high humidity. Do not apply under damp conditions.

**Recast time (minimum):** 4 hours. Usual number of coats: One or two.

**Application method:** Airless spray (refer to Data Sheet D810 for details).

**Colour range:** White and colours off white.

**Before use:** Stir well with a flat wide stirrer.

**Clean up:** Water.

**Quick check**

Manufactured under a quality system certified as complying with ISO9001 by Telarc SAI, an accredited certification body. Printed on environmentally responsible paper, which complies with the requirements of environmental management systems EMAS and ISO14001, using vegetable-based inks.

In every case it is recommended that the appropriate Data Sheet and Safety Data Sheet are consulted prior to application.
