Resene Ceiling Velvet is a flat enamel interior coating based on a tough solventborne resin to give fast drying and durability in all furnishings areas, including wet areas. This lower colour formulation is intended for use in all areas of the home where traditional enamels are used. It's designed for use as a decorative/protective coating.

Preparation

Ensure surface is painted to an equal condition, sanded to a smooth finish using flat sandpaper and vapour barrier primer should be used in wet areas. Use flat or very fine grade sandpaper. Rinse clean with water. Ensure the surface is dry before painting.

Thinning

Stir well with a wide flat stirrer. Use Resene Thinner No.2 (lower odour) or Mineral turps (brush/roller); Resene Thinner No.9 (spray). Usual number of coats: 1-2.

Thinner No.9 (spray).

Resene Thinner No.2 (lower odour), Mineral turps (brush/roller) or Resene Quick Dry (see Data Sheet D45) must be used as the first coat on Matai, or at a cool, constant temperature. Store upright. Wear protective clothing and gloves and face shield and hand and hair covers. Use explosion-proof ventilating, receiving and cleaning equipment. Use explosion-proof, ventilating, receiving and cleaning equipment. Use only non-sparking tools. Avoid inhaling the vapour. Dispose of waste containers properly.

Wear appropriate protective clothing. Absorb with sand or earth. Use phosphorus pentoxide to absorb spillage. Avoid inhaling the vapour. Dispose of waste containers properly.

IF ON SKIN: Take off immediately all contaminated clothing and dispose of appropriately. Further information can be obtained from your local Resene branch. For tips on minimising the impact of your decorating on the environment see the Resene website.

For tips on minimising the impact of your decorating on the environment see the Resene website.

For full technical instructions see Data Sheet D321.

Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.

FOR USE AS A DECORATIVE/PROTECTIVE COATING.

Justice for full technical instructions see Data Sheet D321.
