**Resene Cleancote**

**dirt and mud resistant paint**

**exterior/interior waterborne**

**Resene Cleancote** is a dirt-resistant waterpaint formula for superior exterior durability and adhesion, combined with sap mould resistances. Formulated for hot climates, tropical conditions and outdoor building exposed to heavy rainfall.

**Preparation**

- Ensure surfaces to be painted are in sound condition, dry, free from dirt, dust, loose material and salt.

**If mould is present, treat with Resene Micon & Mildid Killer 300.** (Efflorescence on masonry must be thoroughly cleaned using Resene Data Sheet D80). If necessary accommodate ventilation by using Resene Painter Prep and Housewash within 6 months.

**Application**

- Resene Cleancote is the best surface preparation prior to painting weathered cementitious surfaces, galvanised steel or Zincalume.

**Ensure** the surface to be painted is thoroughly cleaned using Resene Painter Prep and Housewash (see Data Sheet D82). If necessary, dilute with water to achieve the correct consistency. Ensure the surface is dry and dust free before painting.

**Thinning and clean up**

- Application method: Brush, speed brush, synthetic fibre.

- Application rate: 10-11 square metres per litre per coat. The increased spreading rate recommended for this product will achieve hiding in two coats for most colours. Increased spreading rate is achieved by thinned with up to 10% water. Thicken with Resene Priming Wash (see Data Sheet D442) to assist with hiding topcoats with Resene Colours.

- Waterblasting is the best surfacing preparation prior to painting weathered cementitious surfaces, galvanised steel or Zincalume.

- **Keep out of reach of children.** Do not drink.

**WARNING**

- Wear appropriate clothing, gloves and rubber water resistant eye protection.

- Internally, may affect the mucous membranes, respiratory tract, skin, eyes, upper respiratory tract, gastrointestinal tract and liver.

- *Minor irritation* to the skin, eyes and upper respiratory tract. *Severe irritation* to the skin, eyes and upper respiratory tract.

- Do not inhale dust, mist or spray. If dust is inhaled, leave the area and seek fresh air. If the vapour is breathed, move to fresh air.

- Be PaintWise for tips on minimising the impact of your decorating on the environment see the Resene website.

**Quick check**

- **Resene Cleancote is a dirt-resistant waterpaint**

- **Absorb with sand or earth.** Collect in bags and remove from the work area. Do not allow to enter drains or to run-off is diverted onto a garden or grassed area.
