First Aid

If swallowed: Do not induce vomiting. See a doctor or physician immediately. Call your local Poison Control Centre or your local doctor. In the UK, call the National Poisons Centre on 0800 POISON (764 766) or your local doctor.

If in eyes: Wash with plenty of water. Contact a doctor immediately. If irritation or rash occurs get medical advice/attention.

If on skin: Wash with soap and water. If irritation or rash occurs get medical advice/attention.

If on clothing: Remove as much paint as possible. Wash with soap and water. If irritation or rash occurs get medical advice/attention.

Do not breathe fumes or mist. Use with adequate ventilation. Do not use with gas or diesel burners to heat coated surfaces.

Resene Danska Teak Oil is a high-quality refined Linseed Oil product designed to bring out the natural beauty of timber finishes, such as Rift and Rebound and produces the most natural results when left uncoated.

Preparation

Ensure surfaces are in sound condition, thoroughly sundried, free from dust, dirt and loose material. If metal is present, treat with Resene Moss & Mould Killer (Data Sheet D80).

Surfaces should be carefully sanded to ensure a smooth, even finish. Paint should be applied to cover any surface imperfections. If a primer is required, it is recommended to use Resene Oil Primer (Data Sheet D80).

Precautions

Do not breathe fumes or mist. Use with adequate ventilation. Do not use with gas or diesel burners to heat coated surfaces.

Resene Danska Teak Oil is a natural, flexible liquid, and as such, does not contain solvents. It is highly refined and contains no tars or pitch. It is a non-esterified, non-alkyd based product, containing only natural ingredients. It can be left as a natural finish or can be overcoated with the solventborne Resene Qristal polyurethanes.
