Resene Furniture and Decking Oil is designed for direct application to timber decks and furniture to enhance and restore the timber colour and provide protection against water, fungi, and U.V. light. The product is displaced and sprayed through or drip-feeding sprayers. To keep decks and furniture in good condition and assist with water repelling:

Preparation
- Prepare surface with Resene Timber and Deck Wash (see Data Sheet D81) is recommended for all substrates to remove dirt, natural stains and contamination and loose cellulose fibres. All substrates must be free from any gross contamination and loose cellulose fibres. All substrates must be free from any gross contamination and loose cellulose fibres.
- All sanding dusts may be harmful and appropriate protection must be worn. In particular dusts from old lead or chromate based paints or old building materials containing asbestos may be injurious to health if inhaled or ingested.
- Chemicals used during sanding and receiving equipment. Use explosion-proof electrical, ventilating, lighting, and receiving equipment. Intrinsically safe equipment. Use only non-sparking tools.

Use on: Exterior timber decks, furniture and Cedar garage doors.

Gloss level: None. Fully penetrating.

Coverage: How densely timber is treated at treated at 10-12 square metres per litre for body, weathered surfaces may take up to 24 hours. Contamination and loose cellulose fibres. All substrates must be free from any gross contamination and loose cellulose fibres.

PRECAUTIONS
- Do NOT BREATHE DUST, FUMES, GAS, MIST, SPRAYS, SMOKE. DO NOT DRINK OR SWALLOW WHEN USING THIS PRODUCT.
- This product contains chemicals that may be harmful and appropriate protection must be worn. In particular dusts from old lead or chromate based paints or old building materials containing asbestos may be injurious to health if inhaled or ingested.
- Use appropriate protective clothing. Absorb with sand or earth. Collect in proper, labelled containers. Do not allow to enter drains or to run off into waterways.
- For use as a decorative/protective coating.
- Benzene 15-50 gms/L, Solvent Naphtha Petroleum Heavy Aromatic < 5 gms/L, Naphtha Petroleum, Light Aromatic Solvent 80-180 gms/L, 1,2,4-Trimethyl benzene 50-150 gms/L.
- May cause damage to organs through prolonged or repeated exposure. May cause damage to organs through prolonged or repeated exposure.
- Resene Furniture and Decking Oil will not penetrate existing painted surfaces to their full depth. Do not apply Resene Furniture and Decking Oil if a continuous water-beading effect is desired. Performance is related to the depth of colour applied. Light applications and dressed surfaces may require maintenance sooner than heavy applications and rough sawn surfaces will require less maintenance.

FIRST AID
- If INHALED: Remove to fresh air and keep at rest in a position comfortable for breathing. Get medical attention/advice.
- IF IN CONTACT WITH EYES: Remove contact lenses if present and easy to do so. Continue rinsing. If eye irritation persists: Get medical attention or advice.
- IF ON SKIN: Wash with plenty of soap and water. If skin irritation or rash occurs: Get medical attention/advice.
- IF SWALLOWED: Do not induce vomiting. Get medical attention/advice. If you feel unwell: Seek expert advice if the presence of these materials is suspect.
- If exposed or concerned get medical attention.

FLAMMABLE LIQUID AND VAPOUR
- Before use: Stir well with a wide flat stirrer.
- Recoat time (minimum) 24 hours. Drying time (minimum) 24 hours. Do not apply under damp conditions. Do not apply under 10% humidity.
- Do not apply to substrates in direct sunlight. Do not apply under 10% humidity.

FLAMMABLE LIQUID AND VAPOUR
- If you feel unwell: Seek expert advice if the presence of these materials is suspect.
- If exposed or concerned get medical attention.

PREVENTION
- Contains certain poisonous fumes. Avoid skin contact and avoid vapours.
- Neutralised acidic unloaded waste must be removed.
- The tabled neutralised waste product will not be covered by the Act (Class 1).

Flammable liquid
- Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Use only with adequate ventilation.
- Ensures the paint is properly cured. Poor ventilation may inhibit curing.
