SAFETY PRECAUTIONS

Read label before use. Keep out reach of children. This material is quite bland; with vapour, occasional skin contact and even minor ingestion having negligible hazard. Repeated skin contact may, and any eye contact will, cause irritation.

PRECAUTIONS

USE WITH ADEQUATE VENTILATION. DO NOT EAT, DRINK OR SMOKE WHILE USING THIS PRODUCT.

Store in original or correctly labelled container, tightly closed, in a well-ventilated area indoors, away from foodstuffs, at an ambient temperature and avoid freezing conditions.

FIRST AID

IF SWALLOWED: Rinse mouth. Call a POISON CENTRE, doctor or first aider if you feel unwell.

IF ON SKIN (or hair): Remove all contaminated clothing and wash before reuse. Rinse skin with plenty of soap and water. If skin irritation or rash occurs get medical advice or attention.

IF IN EYES: Rinse cautiously with water for several minutes.

Remove contact lenses, if present and easy to do so. Continue rinsing. If eye irritation persists get medical advice or attention. **IF INHALED:** If breathing is difficult, remove to fresh air and keep at rest in a position comfortable for breathing.

When seeking medical advice take this container with you.

or call Resene 0800 737 363.

For use in cleaning interior painted surfaces.

SPILLS: Absorb with sand or earth. Collect and seal in properly labelled drums. Do not allow to run off into waterways. Refer to local waste management authority.

KEEP OUT OF REACH OF CHILDREN

Resene

Interior Paintwork Cleaner

ready to use

net contents 250 mL

Resene Interior Paintwork Cleaner is a labour saving non-dulling neutral cleaner designed for use on all interior painted surfaces. Quick and easy to use, it dries film-free eliminating the need for rinsing.

This pack is supplied in ready to use form. Do not dilute.

- Apply direct to the surface you wish to clean. Do not saturate the surface as this could lead to runs and streaking.
- Thoroughly wipe the area to be cleaned using light strokes turning the cloth frequently to maintain a clean edge. Wipe away any excess solution. Wring the cleaning cloth out into an empty bucket before reapplying further detergent solution. This will minimise the appearance of streaks. For an even finish, do a final wipe using a soft dry lint-free cloth in the direction of the paint flow.
- If trying to remove a localised mark, start from a radius wide of the mark and work towards it. This will minimise any 'tide mark' that might develop.
- Always test the cleaning method in an inconspicuous area to ensure the cleaning process you plan to use does not damage the finish of the paint. Wait until the test area has dried before using the same technique on more conspicuous areas. Walls may appear discoloured as they absorb the water, but should dry back to their original colour.
- Do not vigorously scrub the surface nor use an abrasive and strong detergent as you may burnish the paint surface and mar the finish of the paint. Do not clean painted surfaces within one month of painting, as waterborne paints require this period of time to fully develop their properties.
- Wear gloves if you have sensitive skin.

Read the appropriate Safety Data Sheet before application.
