Resene Kwila Timber Stain is designed for direct application to new and weathered timber decks and furniture to enhance and restore the timber colour and provide protection against water, dirt and U.V. light. As a wetting agent, Resene Kwila Timber Stain will regenerate minor flame exposed damage, and re-coat/minor attacks to a wooden attack.

Preparation
- Ensure substrate to be coated is in sound condition, dry, free from dirt, dust, loose material, oil (including mineral oil based wood finishes) and contamination of any kind.
- Remove accumulated sundries salt by washing with Resene Paint Prep and Fungicide (see Data Sheet).
- If mould is present, treat with Resene Moss & Mould Killer (see Data Sheet).
- For repairs of existing penetrating stains remove any cross contamination and stand-off marks before applying Resene Kwila Timber Stain.
- All sanding dusts may be harmful and appropriate protection must be worn. In particular dusts from old lead or chromate containing paints or old quinacridone based paints or old building materials containing asbestos may be dangerous to inhale if not handled or disposed of in accordance with all appropriate waste management practices. Refer to local waste management authority.
- All sanding dusts may be harmful and appropriate protection must be worn. Refer to local waste management authority.

Application
- Kwila Timber Stain is recommended on Kwila, Cedar, exterior hardwoods and exterior softwoods.
- Special attention to the underside of decks, as they will be difficult to coat. After the deck has been sanded or resanded, Kwila Timber Stain should be treated with special attention to end grains.
- Before applying Kwila Timber Stain, clean deck with a fine grit (400 grit or finer) sandpaper. The smooth, sealed surface must require a second application.
- Resene Kwila Timber Stain will penetrate existing coatings or very hard, absorbent, absorbent and weathered surfaces will require less maintenance.
- Kwila Timber Stain will be less effective if container is warm or hot. Use in a cool, well ventilated area indoors, away from foodstuffs, either between 15ºC-20ºC or cool, contact made with the building act Clause D1.3.3(d).

SAFETY PRECAUTIONS
- Do not let children handle, use, see or smell of any chemicals. Causes mild skin irritation. May become sensitised to skin. May cause an allergic skin reaction. Clean up any spill or leak immediately. If skin irritation occurs, get medical attention.
- Keep out of food and animal reach. Do not allow to enter drains. For use in well ventilated area. Wash hands after use.
- Avoid breathing dust, fumes, gas, mists, spray. Avoid contact with eyes, skin or clothing. Do not drink or swallow. If swallowed, consult a doctor.
- Avoid inhalation. Do not use in an unventilated area. Avoid inhalation. Inhaling any material in this container may be injurious to health.
- Do not allow to enter drains. For use in well ventilated area. Wash hands after use.
